

INTERIM REPORT

**(SIX MONTHS)
30 JUNE 2008**

INTERIM REPORT TO OUR STOCKHOLDERS

The Directors are pleased to present the unaudited results of the Group for the quarter ended June 30, 2008.

The Group achieved Revenues for the period of \$27,329.9 million (2007: \$22,939.9 million), an increase of \$4,390 million or 19.1%. The Net Profit Attributable to Equity holders of the Company increased by \$55 million over the corresponding period of 2007, moving from \$1,106.9 million to \$1,161.9 million, an increase of 5.0%. This represents earnings per stock unit of \$3.54 (2007: \$3.40).

GK Foods had a challenging quarter because of rapidly escalating fuel and food prices. Although revenues for the quarter grew by 18%, pretax profit fell below the corresponding period last year.

Our expansion efforts outside of Jamaica saw us launching our line of porridges in the U.S. market. Grace Tropical Rhythms Refresher and Grace Snacks were launched in the UK. The new Grace Tropical Rhythms Refresher watermelon and cucumber flavours are made from locally grown fruits.

During the quarter, we launched a backyard gardening project to encourage our staff members to grow some of what they eat as a response to changing world conditions. Approximately nine hundred members of staff have expressed interest and they are receiving guidance from the Agro-Grace division.

Our sponsorship of the Jamaica Cultural Development Corporation Gospel Festival under our Grace Tropical Rhythms brand was deemed a big success, and we are happy with our continued association with the festival which showcases the wealth of talent in our country.

GK Investments performed creditably for the second quarter. The Money Services segment performed well and continued to exceed our expectations with inbound remittance volumes growing year over year. Profits from the Banking, Investments and Insurance segments were consistent with our expectations. However, the Retail and Trading segment has underperformed mainly due to tightened consumer spending and rapidly escalating costs within the last few months.

GraceKennedy Money Services (UK) Ltd was appointed by Western Union as a master Agent in the UK on June 26, 2008. This represents a major step towards expanding to serve our Diaspora outside of the Caribbean and other immigrant groups.

The inaugural “Vision Awards” to recognize outstanding Jamaican women, sponsored by First Global Bank Limited, was a resounding success with Dr. Olive Lewin, distinguished folklorist, being the first recipient.

We are inspired by the talent and energy of the upcoming younger generation. As an example, Sanjay Buchanan, a beneficiary of Grace & Staff Community Development Foundation Homework Centre, attended the People to People Future Leaders Summit at Columbia University in New York. Sanjay, a fourth-form student of Wolmer’s Boys’ School, was selected to participate in this prestigious academic programme, based on his outstanding performance in the Preliminary Scholastic Aptitude Test (PSAT) exams.

Thanks to my colleague directors, management and staff who continue to be dedicated to the efforts of the GraceKennedy Group in achieving our objectives. We also wish to thank our customers, consumers, suppliers and all stakeholders for their continuing support as we position our businesses to serve our customers’ needs.

Douglas R. Orane
Chairman & Chief Executive Officer

INTERIM CONSOLIDATED FINANCIAL STATEMENTS QUARTER ENDED 30 JUNE 2008

Notes

1. Accounting Policies

(a) Basis of preparation

These financial statements have been prepared in accordance with and comply with International Financial Reporting Standards (IFRS), and have been prepared under the historical cost convention, as modified by the revaluation of certain fixed and financial assets.

The accounting policies followed in these interim financial statements are consistent with those used in the audited financial statements for the year ended 31 December 2007.

These financial statements are presented in Jamaican dollars unless otherwise indicated.

(b) Fixed Assets

All fixed assets are initially recorded at cost. Freehold land and buildings are subsequently shown at market valuation based on biennial valuations by external independent valuers, less subsequent depreciation of buildings. All other fixed assets are carried at cost less accumulated depreciation.

(c) Intangible Assets

Goodwill is recorded at cost and represents the excess of the value of consideration paid over the fair value of the net assets acquired. Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Other intangible assets, which include computer software licences, brands, distribution channel agreements and policy contracts are recorded at cost and amortised over their estimated useful lives.

(d) Investment securities

The Group classifies its investments in debt and equity securities into the available-for-sale category. Available-for-sale investments are subsequently re-measured at fair value. Unrealised gains and losses arising from changes in the fair value of these investments are recorded in the Capital and fair value reserve.

(e) Employee benefits

(i) Pension plan assets

The Group operates a defined benefit plan. The scheme is generally funded through payments to a trustee-administered fund as determined by periodic actuarial calculations. A defined benefit plan is a pension plan that defines an amount of pension benefit to be provided, usually as a function of one or more factors such as age, years of service or compensation.

The asset or liability in respect of defined benefit pension plans is the difference between the present value of the defined benefit obligation at the balance sheet date and the fair value of plan assets, together with adjustments for actuarial gains/losses and past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by the estimated future cash outflows using interest rates of Government securities which have terms to maturity approximating the terms of the related liability.

Actuarial gains and losses arising from experience adjustments, changes in actuarial assumptions and amendments to pension plans are charged or credited to income over the average remaining service lives of the related employees.

(ii) Other post-retirement obligations

Some Group companies provide post-retirement health care benefits, group life, gratuity and supplementary plans to their retirees. The entitlement to these benefits is usually based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment, using an accounting methodology similar to that for defined benefit pension plans. These obligations are valued annually by independent qualified actuaries.

(iii) Equity compensation benefits

The Group operates an equity-settled, share-based compensation plan. Share options are granted to management and key employees. The fair value of the employee services received in exchange for the grant of the options is recognised as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the options granted, excluding the impact of non-market vesting conditions. Options are granted at the market price of the shares on the date of the grant and are exercisable at that price. Options are exercisable beginning one year from the date of grant and have a contractual option term of six years. When the options are exercised, the proceeds received net of any transaction costs are credited to share capital (nominal value) and share premium.

(f) Deferred taxation

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted tax rates are used in the determination of deferred income tax.

Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

(g) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

(h) Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are included within bank and other loans in liabilities on the balance sheet.

(i) Segment reporting

The principal activities of the company, its subsidiaries and its associated companies (the Group) are as follows:

- *Food Trading* – Merchandising of general goods and food products, both locally and internationally; processing and distribution of food products; operation of a chain of supermarkets.
- *Retail and Trading* – Merchandising of agricultural supplies, hardware and lumber; institutional and airline catering; automotive dealership.
- *Banking and Investment* – Commercial banking; investment management; lease and trade financing; stock brokerage; pension management; property rental; mutual fund management.
- *Insurance* – General insurance and insurance brokerage.
- *Money Services* – Operation of money transfer services; cambio operations and bill payment services.

(j) Comparative information

Where necessary, comparative figures have been reclassified to conform with changes in presentation in the current year. In particular, the comparatives have been adjusted or extended to reflect the requirements of new IFRS, as well as, amendments to and interpretations of existing IFRS.
