And today's financial tip:

Why do public companies produce an Annual Report?

Public companies are legally required to report their financial results on an annual basis. This report, known as an Annual Report, includes the balance sheet, income statement, cash flow statement, description of company operations and comments on the company's future prospects. The purpose of this requirement is to ensure that the company's Board of Directors and senior managers are held accountable to shareholders for their management of the company.
