- a. The bidding period(s) will start at 9:00 am and end at 12:00 noon on auction days.
- b. Each investor is allowed one (1) bid with the option of increasing the amount being tendered for until the close of the bidding period or reducing the interest rate.
- c. The minimum bid quantity is \$5,000.00.
- d. The bid multiplier will be set at \$1,000.00.
- e. The date of issue for each auction is equivalent to the stated settlement date of that auction.
- f. The maximum bid price on Treasury Note VCN080524 being auctioned will yield 6.25 percent.
- g. The price of the issue will be determined by a Competitive Price Auction.
- h. Payment of principal and interest on Treasury Note VCN080524 will be made semi-annually on May 8 and November 8 respectively, with the first principal and interest payment due starting on November 8, 2019 until maturity.
- i. Yields will not be subject to any tax, duty or levy of the participating Governments of the Eastern Caribbean Currency Union (ECCU).
- j. Investors can participate in the issue through the services of any of the Licensed Intermediaries who are members of the Eastern Caribbean Securities Exchange.
- k. In 2018 Moody's Investor Services maintained the Government of St. Vincent and the Grenadines outlook at stable and affirmed the rating of B3.
- l. The Treasury Note will be issued on the Regional Government Securities Market (RGSM) and listed on the Eastern Caribbean Securities Exchange (ECSE).

The Current List of Licensed Intermediaries are:

- Bank of Nevis Limited
- Bank of St. Vincent and the Grenadines Ltd.
- Bank of St. Lucia Ltd.
- St. Kitts Nevis Anguilla National Bank Limited
- First Citizens Investment Services Ltd. – Located in Saint Lucia
- Grenada Co-operative Bank Limited

Investors can participate in the issue through the services of any of the Licensed Intermediaries who are members of the Eastern Caribbean Securities Exchange.

A. GOVERNMENT FISCAL OPERATIONS

Preliminary data indicates that Central Government fiscal operations for the year ending December 31, 2018 improved when compared to the previous period in 2017. Primary balance moved from a surplus of \$5.16 million in 2017 to \$26.45 million in 2018. This was supported by a 0.3% increase in current revenue mainly as a result of higher revenue from various taxes and a decline in capital expenditure of 44.2 percent. As a consequence, it led to an overall deficit of \$23.44 million in 2018 compared to the \$44.60 million deficit in 2017.

Table 1: Summary of fiscal operations for the year ended December 31, 2018 compared with 2017

Source: Ministry of Finance and Economic Planning

Revenue

Current revenue amounted to \$594.12 million in 2018, representing a 0.3 percent increase when compared with the previous year amount of \$592.24 million. Collections from Taxes on International Trade increased considerably, by 10.1 percent, to 162.10 million mainly attributable to the 7.1 percent in merchandise imports. This was evidenced by higher receipts from all major subcomponents increased including; VAT revenue (6.9 percent), Import Duty (10.8 percent) and Vehicle Surtax (46.6 percent). Revenue from Taxes on Goods and Services and Sale of Goods and Services also increased, by 3.0 percent and 7.5 percent respectively, owing to the increase in merchandise imports and improvements in domestic economic activity during the year.

Contrastingly, collections from Taxes on Income and Profits and Taxes on Property decreased. Taxes on Income and Profits fell by 2.3 percent mainly due to lower collections from Individuals and Corporation Taxes which were impacted by the reduction in the standard corporate tax rate and the top marginal rate of personal income tax, effected January 2018. Taxes on Property decreased, 33.3 percent, to 37.43 million on account of lower land sales to foreigners and locals.

Capital inflows as at December 31, 2018, amounted to \$24.46 million, down 51.5 percent from the amount collected during the corresponding period in 2017. This was due to a drop in revenue from Capital Grants (47.4 percent) and lower land sales (83.5 percent).

Expenditure

As at December 31st 2018, recurrent expenditure amounted to \$573.62 million compared to \$564.73 million for the previous year, representing a 1.6 percent increase over 2017. Spending on the Central Government Wage Bill was 2.6 percent greater than for the same period in 2017 mainly due to impact of increments and allowances during the period. Outlays on Transfers grew by 3.6 percent to \$161.70 million due to an increase in the amounts expended on Current Grants to Other Agencies (20.9 percent). Spending on Goods & Services decreased by 5.3 percent to \$74.01 million reflecting lower amounts expended on loan charges (\$6.45 million). Capital Expenditure fell by 44.2 percent to \$68.39 million (or 3.1 percent of GDP) in 2018 from \$122.56 million (or 5.8 percent of GDP) in 2017. The low capital spending reflects partly the slow implementation rate on on-going projects and tardy processing of journals to bring to account direct payment made to various contractors by funding agencies.

Financing

The Overall Deficit of \$23.44 million was funded by a mix of external and domestic instruments. The government relied primarily on domestic financing sources with the majority of the domestic financing coming from the domestic loan disbursements; inclusive of new bonds, notes, loans and other sources of financing as seen in table 2 .

Table 2: Central Government Financing 2018 compared with 2017

Fiscal Outturn as at February 28, 2019

The Central Government fiscal operations for the period ended February 28, 2019 worsened when compared to the same period in 2018. Current Revenue increased by 11.5 percent to \$95.06 million, while Current Expenditure which increased by 13.7 percent settled at \$95.17 million. Consequently, the Current Account recorded a deficit of \$0.11 million. Capital Expenditure turned in a less than favourable performance when compared to the same period in 2018 declining from \$0.46 million in 2018 to \$0.19 in 2019. During the period under review, the Overall Balance contracted moving from a surplus of \$1.68 million in 2018 to a deficit of \$0.04 million in 2019 reflecting the increase in Current Expenditure.

Interest	8.975	9.381	5.298	77.1
Transfers	24.973	26.625	23.144	15.0
CAPITAL EXPENDITURE	11.267	0.193	0.461	(58.1)
CURRENT BALANCE	(5.998)	(0.111)	1.582	(107.0)
PRIMARY BALANCE	(6.946)	9.338	6.979	33.8
OVERALL BALANCE	(15.920)	(0.043)	1.681	(102.5)

Most categories of tax revenue turned in improved performances during the first two months of 2019. Revenue from Taxes on Income and Profits grew by 8.3 percent to \$20.09 million. This was due to higher collections from all subcategories and particularly due to a large payment of arrears in Corporation Tax. Intake from Taxes on Property grew from \$2.61 million in 2018 to \$4.86 million in 2019, reflective of greater receipts from Stamp Duty on Property during the period. Collections from taxes on goods and services amounted to \$33.93 million, 21.0 percent more than the level in 2018 on account of higher revenues from domestic VAT (16.0 percent) and collections

from Telecommunications and Broadcast Licences of \$4.85 million. The increase in VAT revenue is indicative of growth in domestic economic activity. Revenue from Taxes on International Trade declined by 6.9 percent to \$22.54 million in 2019. Capital Revenue and Grants as at February 2019 amounted to \$0.26 million down 53.5 percent from the amount collected in 2018 due to lower receipts from Capital Grants during the period.

In 2019, Current Expenditure grew by 13.7 percent to \$95.17 million on account of higher outlays on all major categories of expenditure. Payment of Compensation of Employees amounted to \$50.88 million and the Employer's Social Security Contribution to \$1.97 million. The 7.7 percent increase in spending on Compensation of Employees was mainly due to a 1.5% salary increase for 2019 and a 1.0% increase paid retroactively for half-year 2018. Interest Payments increased during the period from \$5.30 million to \$9.38 million, as a result of higher payments on the domestic component which is reflective of the increase in the Domestic Debt stock. Outlays on Transfers increased by 15.0 percent to \$26.63 million mainly based on higher amounts expended on Employment Related Social Benefits (pensions) and Grants to Other Agencies which went up by 14.2 percent and 17.8 percent respectively. Investment in Capital Expenditure stood at \$0.19 million, compared with \$0.46 million during the comparable period in 2018.

4.0 PUBLIC DEBT

Data of the total public debt outstanding as at December 31st, 2018 stood at \$1.646 billion, a 5.4 percent increase over same period 2017. Of this amount, total domestic debt accounted for \$576.5 million while external debt accounted for \$1.07 billion, these two components represented 34.8 percent and 65.2 percent of the total debt stock respectively. Total Central government debt for 2018 constituted 84.8 percent of the total debt stock outstanding, the remaining 15.2 percent was owed by public corporations. During the year \$105.3 million were issued in bonds and notes of varying tenors while \$33.9 million in bullet bonds and notes matured and were fully repaid using contributions from the sinking fund.

December 31st 2018 saw significant movements in the domestic accounts payable from \$30.7 to \$72.7 million when compared to same period 2017, an increase of 137.0 percent as central government subsumed the accounts payables of the International Airport Development Company which was formed to oversee the construction of the Argyle International Airport and ceased

operations on the Airport’s completion. External bond holdings also had significant movements in its 2018 year end outstanding balance by 47.5 percent which increase dually through the purchasing of securities by non-residents and by the re-classification exercise undertaken by the St. Vincent and the Grenadines’ Debt Management Unit to record all previously issued bonds in the debt database by the residency of the bondholders as is the international best practice.

Public Debt as at February 28th 2019

Total Public Debt outstanding as at February 28th, 2019 totalled \$1.654 billion; of which total domestic debt accounted for 35.1 percent while the remaining 64.9 percent was owed to external creditors. Total Central government debt constituted 85.3 percent of the total debt stock outstanding, the balancing 14.7 percent was owed by public corporations.

The domestic central government component of the debt stock as at February 28th, 2019 when compared to December 31st, 2018 recorded decreases in bonds and notes, loans and accounts payables. Increases were recorded in the remaining categories the most significant of which was to the overdraft facility; a short term obligation due for repayment in less than one year. The decrease in Public Corporations’ obligations during this period were on account of the repayment of existing debt and the non-contraction of new debt.

There were no significant movements on the external components of the debt as can be seen in table 4 below Noteworthy however is that Central Government as at December 31st 2018 assumed Liat’s CDB loan obligation and would begin servicing the loan from 2019 onwards.

5.0 Debt Servicing as at February 28 2019

Total debt service as at February 28, 2019 amounted to \$25.2 million. Of this amount, external debt service totalled \$11.0 million, representing an increase of 6.3 percent over the corresponding figure in February 2018 of \$10.4 million. The increase was driven mainly by interest which increased by \$1.2 million largely due to unbudgeted payments made to purchase CDB special development fund which caused a higher outlay in debt servicing obligations. Debt servicing payments to Alba also commenced in 2018.

Total domestic debt service for the period under review amounted to \$14.1 million, representing an increase of 17.4 percent over the corresponding figure recorded in February 2018 of \$7.2 million. Increases were recorded in both amortization and interest payments which were positively

correlated with the issuance of new bonds and notes and continued loan borrowings from our major domestic creditors including:- Bank of St. Vincent and the Grenadines, Eastern Caribbean Central Bank and the National Insurance Services during 2018. There were no contributions made to the Sinking Fund as at February 2019.
