And today's financial tip:

What does an All-Or-None order mean?

An All-Or-None order is a limit price order which is to be executed in its entirety or not at all. For example, an investor may wish to buy 1,000 TDC shares at \$1.40, however, only 600 TDC shares are offered for sale at \$1.40. Even though the prices matched no trade will occur because the quantities do not match.
