

ECSE DAILY NEWS REPORT

Welcome to the ECSE daily trading report for 2nd May 2008.

Today on the Eastern Caribbean Securities Market 2,050 Cable and Wireless St Kitts and Nevis Ltd shares traded at \$7.50, 25 East Caribbean Financial Holding Company shares traded at \$15.00 and 20 St Kitts Nevis Anguilla National Bank shares traded at \$3.28 all holding firm on their last traded price.

Although there were bids and offers for other listed securities there were no other matches, and thus there were no changes in the market prices of the securities trading on the ECSM.

And today's financial tip:

What is a positive yield curve?

A positive yield curve is a situation in which long-term debt instruments have a higher rate of return than short-term debt instruments. Investors usually demand a higher return for taking on the additional risk of a longer-term investment, so a positive yield curve is the norm in most markets and is sometimes referred to as a normal yield curve.
