

ECSE DAILY NEWS REPORT

Welcome to the ECSE daily trading report for 14th May 2008.

Today on the Eastern Caribbean Securities Market, 764 Bank of Nevis shares traded at \$6.00 unchanged from its last traded price.

Although there were bids and offers for other listed securities there were no other matches, and thus there were no changes in the market prices of the securities trading on the ECSM.

And today's financial tip:

What does a Credit Rating Agency do?

A credit rating agency publishes credit ratings for companies and governments based on an analysis of their credit worthiness. Credit rating systems generally range from triple A at the high end to D (for default) at the low end. These agencies play a useful role in financial markets, offering investors the benefit of their research and expertise in making investment decisions.
