

ECSE DAILY NEWS REPORT

Welcome to the ECSE daily trading report for 23rd January, 2008.

Today on the Eastern Caribbean Securities Market, 135 S L Horsford shares traded at \$1.50 and 6,060 St Kitts Nevis and Anguilla National Bank shares traded at \$3.30 both unchanged since their last traded price. Although there were bids and offers for other listed securities there were no other matches, and thus there were no changes in the market prices of the securities trading on the ECSE.

And today's financial tip:

Is the book value per share an indicator of economic worth?

Book value per share is the ratio of stockholder equity to the average number of common shares. Book value per share is not always a useful indicator of economic worth, since it reflects accounting valuation and not necessarily market valuation.
