And today's financial tip:

Reduce your debts. This might not be possible immediately. You can consolidate debt, which would minimise the number of debtors you have, and hopefully reduce the monthly payment.

Another way to tackle your debt is by talking to your banker about a payment plan that can help you to meet your loan commitments and avoid financial losses.

Also pay close attention to the size of your credit card debt. It is wise to limit your credit card debt to a level that you can pay off on time and in full and the end of each month.
