### **And today's financial tip:**

**Establish a good credit record.** Creditability is an important criteria used in qualifying applicants for a loan. You can be qualified for a loan by building a good credit record. This can be done by paying your debts on time. Also the more information you can provide about yourself, the more comfortable lenders may feel extending credit to you. In addition, certain information, such as having the same job can make you appear to be more stable in lenders' eyes.
