S. L Horsford & Company	\$2.00
Trinidad Cement Limited	\$3.55
TDC	\$2.00

And today's financial tip:

What is a positive yield curve?

A positive yield curve is a situation in which long-term debt instruments have a higher rate of return than short-term debt instruments. Investors usually demand a higher return for taking on the additional risk of a longer-term investment, so a positive yield curve is the norm in most markets and is sometimes referred to as a normal yield curve.
