ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED

UNAUDITED

FINANCIAL STATEMENTS

FOR THE SECOND QUARTER ENDED

DECEMBER 31, 2008

SKNA National Bank Ltd. Comptroller Division

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

For the 2nd quarter ended December 31, 2008

Introduction

The Management Discussion and Analysis gives an overview of the Company's financial condition and results of operations for the second quarter ended December 31, 2008. The report includes forward-looking statements about objectives, strategies and expected financial results. These statements are inherently subject to risks and uncertainties beyond the Bank's control including, but not limited to, economic and financial conditions globally, technological development, competition, and regulatory developments in St. Kitts and Nevis and elsewhere. These and other factors may cause the Bank's actual performance to differ materially from that contemplated by forward-looking statements. The reader is therefore cautioned not to place undue reliance on these statements.

Income Statement

Net Interest Income

At December 31, 2008, net interest income fell by $7.4 million or 29.5% when compared with the results attained for the same period in 2007. A reduction in interest income on advances negatively impacted net interest income for the period.

Non-Interest Income

Non-interest income fell by 34.5% at December 31, 2008 when compared with December 31, 2007. The year-over-year decrease in non-interest income was due to a fall in income from E-business transactions, foreign exchange and marketable securities. Management anticipates an improvement in non-interest income during the next quarter and beyond due to continued prudent measures.

Non-Interest Expenses

Non-interest expenses were $12.5 million at December 31, 2008. This compares with $11.1 million at December 31, 2007 and represents an increase of 12.6%. The increase in non-interest expenses resulted from increased foreign charges, legal expenses, staff costs and commissions on debit cards.

The company anticipates lower operating expenses over the next quarter through continued emphasis on cost containment, effective risk management and operational efficiencies. Cost savings will also be attained through continued improvements in the technology infrastructure.

Net Income

The net result of the Bank's operations, over the review period, was a fall in net income. At December 31, 2008 net income was $16.8 million, or 42.9% lower than the prior year's earnings of $29.4 million.

The Company believes that net income will show an improvement over the next quarter and beyond, through continued focus on exploring new avenues to diversify and enhance our non-interest income base.

Balance Sheet

Assets

As at December 31, 2008 total assets fell by 5.4% when compared with total assets at June 30, 2008. The decrease in total assets was due mainly to a fall in deposits held with foreign banks and non-bank financial institutions. Demand deposits with foreign banks and non-bank financial institutions accounted for 2.5% and 0.3% of the asset portfolio respectively as at December 31, 2008 compared with 5.7% and 3.8% at June 30, 2008.

Deposits

At the end of the second quarter ended December 31, 2008 customer deposits decreased by 3.3% over that recorded at the end of fiscal year 2008. The decrease in deposits during the review period was due mainly to a fall in USD current accounts, correspondent and non-correspondent demand deposits.

Loans and Advances

At December 31, 2008 loans and advances increased by $58.8 million representing a 6.2% rise from $947.4 million recorded at June 30, 2008. The increase in loans and advances resulted mainly from the increased utilization of our overdraft facility by the public and private sectors.

Shareholders' Equity

The company continues to realize its goal of providing a satisfactory return to shareholders and increasing the value of investment. Shareholders' Equity was $448.2 million at December 31, 2008 compared with $429.7 million at June 30, 2008. This represents a 4.3% increase, resulting from the net operating income for the period and appreciation in the market value of securities.

Corporate Governance

The Board of Directors continues to search for innovative ways to improve corporate governance, risk management, ethical conduct, best practices and maintenance of international standards. In this regard the Board is focused on:

- Adoption and implementation of corporate governance guidelines and codes of ethics and business conduct.

- Continued emphasis on the Corporate Strategic Plan, which includes management's philosophy, economic outlook and conditions, performance targets and plans for implementation of strategies over the next 5 years.

Additionally, the Board will continue to take vital steps towards culturing a strong corporate governance environment, improving transparency and fostering high levels of integrity, thereby strengthening shareholder confidence in the Company.

Risk Management

The management of risks has emerged as one of the greatest challenges that banks now face. This challenge must be tackled by developing new approaches and by adjusting current processes.

The Bank has taken up this challenge and has placed increased emphasis on the management of risks through the systematic development of tools and strategies to mitigate these risks. Risks are continuously being evaluated in terms of the level of impact they can have on income and asset values.

While the bank places strong emphasis on the management of risks, it does so with the objective of balancing risk taking with expected returns to our shareholders.

Outlook

Over the next quarter, the Company will continue to focus on cost containment, risk management and operational efficiency. We will continue to build on our existing infrastructure and technology to enhance our products and services and focus on initiatives to augment our interest income and non-interest income base.

These measures should boost total revenue. At the end of the third quarter ending March 31, 2009, we anticipate an increase in income (before tax), shareholders equity, deposits and assets when compared to the end of the same period in 2008.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED DECEMBER 31, 2008

1. Incorporation

The St. Kitts-Nevis-Anguilla National Bank Limited was incorporated on the 15^{th} day of February 1971 under the Companies Act chapter 335, but was re-registered under the new Companies Act No. 22 of 1996 on the 14^{th} day of April 1999.

2. Principal Activity

St. Kitts-Nevis-Anguilla National Bank Limited provides a comprehensive and international range of banking, financial and related services.

3. Significant Accounting Policies

These accounting policies are summarized below: -

(i) Basis of preparation

The financial statements are prepared in accordance with International Financial Reporting Standards. These financial Statements have been prepared on a historical cost basis, except for the measurement at fair value of available-for-sale investments, and financial assets at fair value through profit and loss.

Amendments to published standards effective in 2006

IAS 19 (Amendment), Employee Benefits, is mandatory for the Bank's accounting period beginning on or after July 1, 2006. It introduces the option of an alternative recognition approach for actuarial gains and losses. It may impose additional recognition requirements for multi-employer plans where insufficient information is available to apply defined benefit accounting. It also adds new disclosure requirements. As the Bank does not intend to change the accounting policy adopted for recognition of actuarial gains or losses, adoption of this amendment only impacts the format and extent of disclosures presented in the accounts.

Standard issued but not yet adopted

IFRS 7, Financial Instruments, Disclosures (effective from January 1, 2007):
IFRS 7 introduces new disclosures to improve the information about financial instruments. It requires the disclosure of qualitative and quantitative information about exposure to risks arising from financial instruments, including specified minimum disclosures about credit risk, liquidity risk and market risk, including sensitivity analysis to market risk.

3. Significant Accounting Policies continued

(i) Basis of preparation continued

Standard issued but not yet adopted

IFRS 7 replaces IAS 30, Disclosures in the Financial Statements of Banks and Similar Financial Institutions, and disclosures requirements in IAS 32, Financial Instruments: Disclosure and Presentation.

Standards, amendments and interpretations effective in 2006 but not relevant

The following standards, amendments and interpretations are mandatory for accounting periods beginning on or after January 1, 2006 but are not relevant or have no material impact to the Bank's operations:

- IAS 21 (Amendment), Net Investment in Foreign Operations;
- IAS 39 (Amendment), Cash Flow Hedge Accounting Forecast Intragroup Transactions;
- IAS 39 (Amendment), The Fair Value Option;
- IAS 39 and IFRS 4 (Amendment), Financial Guarantee Contracts;
- IFRS 1 (Amendment), First-time Adoption of International Financial Reporting Standards, and
- IFRS 6 (Amendment), Exploration for and Evaluation of Mineral Resources;
- IFRIC 4, Determining whether an Arrangement Contains a Lease;
- IFRIC 5, Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds; and
- IFRIC 6, Liabilities arising from Participating in Specific Market – Waste Electrical and Electronic Equipment.

Interpretations to existing standards that are not yet effective and have not been early adopted by the Company (effective for annual periods beginning on or after November 1, 2006)

IFRIC 10, Interim Financial Reporting and Impairment, is mandatory for the Bank's accounting period beginning on or after July 1, 2006 or later periods but that the Bank has not early adopted. IFRIC 10 prohibits the impairment losses recognized in an interim period on goodwill, investment in equity instruments and investments in financial assets carried at costs to be reversed at a subsequent balance sheet date. This standard is not expected to have any impact on the Bank's accounts.

3. Significant Accounting Policies continued

(i) Basis of preparation continued

Interpretations to existing standards that are not yet effective and not relevant to the Company's operations:

IFRIC 7, Applying the Restatement Approach under IAS 29, Financial Reporting in Hyperinflationary Economies (Effective from March 1, 2006): IFRIC 7 provides guidance on how to apply the requirements of IAS 29 in a reporting period in which an entity identifies the existence of hyperinflation in the economy of its functional currency, when the economy was not hyperinflationary in the prior period.

(ii) Cash and Cash Equivalents

Cash and Cash Equivalents, as mentioned in the statement of cash flows, comprise of cash on hand, balances with other financial institutions and the Eastern Caribbean Central Bank, short term receivables, as well as investment funds whose maturities are ninety days or less.

(iii) Depreciation

Freehold buildings are depreciated on a straight-line basis at a rate of 2½ per cent per annum. Equipment, furniture, fittings and vehicles are depreciated on a straight-line basis over their useful lives at rates ranging from 10 per cent to 33 1/3 per cent.

(iv) Currency

All values are expressed in Eastern Caribbean Currency.

(v) Foreign Currency

Foreign currency transactions are accounted for at the mid-rate of exchange prevailing at the date of the transaction. Financial assets and liabilities denominated in foreign currencies at year-end are converted to Eastern Caribbean currency at the mid-rate of exchange ruling on that day. Gains and losses resulting from such transactions and from the translation of financial assets and liabilities denominated in foreign currencies are recognized in income.

3. Significant Accounting Policies continued

(vi) Investments

Investment securities are classified into the following four categories: financial assets at fair value through profit and loss, available-for-sale, held-to-maturity, and originated debts. Investment securities intended to be held for an indefinite time period, which may be sold in response to needs for liquidity or changes in interest rate or equity prices and are not classified as financial assets at fair value through profit and loss are therefore classified as available-for-sale. Investment securities with fixed maturity where management has both the intent and the ability to hold to maturity are classified as held-to-maturity.

Investment securities are initially recognized at cost - which includes all transaction costs. Financial assets at fair value through profit and loss and Available-for-sale financial assets are subsequently re-measured to fair value based on quoted bid prices. As fair values for unquoted securities are not readily available, both equity and debt securities are measured at cost less any provision for impairment.

Unrealised gains and losses arising from changes in fair value of securities are recognized in income if such securities are “Financial Assets At Fair Value Through Profit and Loss” or equity if they are Available-for-Sale. When securities are disposed of, the resulting gain or loss is included in income.

A financial asset is impaired if its carrying amount is greater than its estimated recoverable amount. The recoverable amount of a financial instrument measured at fair value is the present value of future cash flows discounted at the current market rate of interest for a similar financial asset. When securities become impaired the related impairment loss is charged to income as a loss.

Held-to-maturity and originated debt investments are carried at amortised cost using the effective yield method, less any provision for impairment.

An impairment loss on financial assets carried at amortised cost is the difference in the asset’s carrying amount and the present value of future cash flows discounted at the financial instrument’s original effective interest rate.

Interest earned on all investment securities is reported in interest income.

Dividend on equity securities, when received, is reported separately in dividend income. All purchases and sales of investment securities are recognized at trade date – the date on which the Bank commits to purchase or sell financial assets.

3. Significant Accounting Policies continued

(vii) Loans and Advances

Loans originated by the Bank are financial assets created by providing money directly to a borrower and as such are carried at cost.

The accrual of interest ceases when the principal or interest is past due 90 days or when, in the opinion of management, full collection is unlikely. The allowance for loan impairment is based on continuous appraisal of all loans and advances together with an annual review of loan collateral. Specific provisions for losses are made against loans and advances when, in the opinion of management, credit risk or economic factors make recovery doubtful.

The allowance for loan impairment also covers general provisions for losses as required by the regulators, as there is always the possibility of losses within a loan portfolio that have not been specifically identified as non-performing at the balance sheet date.

The provision for loan impairment and recoveries of bad debts previously written off is charged to income. When a loan is uncollectable, it is written off against the related allowance for impairment. All subsequent recoveries are credited to the bad debt recovered income account.

(viii) Taxation

Deferred tax is provided, using the liability method, for all temporary differences arising between the tax bases of assets and liabilities and their carrying values for financial reporting purposes. Currently enacted tax rates are used to determine deferred income tax.

(ix) Income

Interest income is recognized on the accrual basis for productive loans and advances, Investment Securities, and Interest bearing deposits with other financial institutions. Non-Productive loans and advances relate to accounts whose repayments of principal or interest are 90 days or more in arrears. Interest on these accounts is taken to income when received. Other income, such as fees and commission, is recognized on the accrual basis.

(x) Comparative Figures

Certain changes in presentation have been made during the year and comparative figures have been restated accordingly.

3. Significant Accounting Policies continued

(xi) Reserve Requirement

In accordance with Article 33 of the Eastern Caribbean Central Bank (Central Bank) Agreement 1983, The St. Kitts-Nevis-Anguilla National Bank Limited is required to maintain reserves against deposits through cash holdings and or by deposits held with the Central Bank.

(xii) Employee benefits

Pension obligations

St Kitts-Nevis-Anguilla National Bank Limited operates a defined benefit pension plan, the assets of which are generally held in separate administered funds. The pension plan is funded by the Bank, taking account of the recommendations of independent qualified actuaries.

As at December 31, 2008 the administrators were unable to provide information on the Bank's proportionate share of the defined benefit obligation and plan assets in accordance with IAS 19.

Gratuity

The Bank provides a non-contributory gratuity plan to its employees after 15 years of employment. The amount of the gratuities paid to eligible employees at retirement is computed with reference to final salary and calibrated percentage rates based on the number of years of continuous service.

(xiii) Leases

The leases entered into by the Bank are primarily operating leases. The total payments made under operating leases are charged to the consolidated statement of income.

Directors' Fees	147,000	273,000
Depreciation	833,856	1,852,713

19. Earnings Per Share

Earning per share is calculated by dividing the net income attributable to shareholders by the weighted average number of ordinary shares in issue during the year.

	Dec 2008 $	June 2008 $
Net income attributable to shareholders	16,758,165	110,961,659
Weighted average number of ordinary shares in issue	81,000,000	81,000,000
Diluted/Basic earnings per share (Annualized)	0.41	1.37

20. Dividend

The financial statements reflect a dividend of $14,175,000 for the year ended June 30, 2007, which was approved at the Thirty-Seventh Annual General Meeting held on January 31, 2008 and subsequently paid.

Dividend for the year ended June 30, 2008 is not reflected in these financial statements. This dividend, if approved at the next Annual General Meeting, will be accounted for as an appropriation of retained earnings in the year ending June 30, 2009.

21. Contingent Liabilities

21.1 Litigations

Lynn Bass v. St Kitts-Nevis-Anguilla National Bank Limited
The Claimant's employment with the Bank was terminated in August 2006. She has since sued the Bank for reinstatement to her position, and damages. The Bank's external solicitors believe that there is a very good chance that the claims against the Bank will be dismissed.

21.2 Financial Commitments

As at December 31, 2008, the Bank was committed to make loans and advances amounting to approximately $26,507,921 (June 30, 2008 - $20,833,386)

22. Related Parties

Parties are considered related if one party has the ability to control the other party or exercise significant influence over the other party in making operational or financial decisions.

A number of banking transactions are entered into with our subsidiaries and directors in the normal course of business. Those transactions, which include deposits, loans and other transactions, are carried out on commercial terms and conditions, at market rates.

Subsidiaries
Advances outstanding as at December 31, 2008 amounted to $21,638,480 (June 30, 2008 - $21,065,834).

Deposits balances as at December 31, 2008 amounted to $110,005,595 (June 30, 2008 - $101,099,141).

Directors and Associates
Advances outstanding as at December 31, 2008 amounted to $1,127,204 (June 30, 2008 - $958,745).

Deposits balances as at December 31, 2008 amount to $1,485,370 (June 30, 2008 - $1,786,894).

23. Fair Value of Financial Assets and Liabilities

Financial assets and liabilities not carried at fair value include cash and money at call, originated debts, investment securities held to maturity, investment in subsidiaries, due to other banks, customers' deposits and due to subsidiaries. The following methods and assumption are relevant to their fair value:

Assets

Cash and money at call

Since these assets are short-term in nature, the values are taken as indicative of realizable value.

Loans and advances

Loans and advances are net of provision for loan losses. These assets result from transactions conducted during the normal course of business and their values are not adversely affected by unusual terms. The inherent rates of interest in the portfolio approximate market conditions and yield discounted cash flow values that are substantially equal to the carrying value.

Investment securities held to maturity and Investment in subsidiaries

The fair value of these items is assumed to be equal to their carrying values.

Liabilities

Due to other banks, customers' deposits and due to subsidiaries

The fair value of financial liabilities with no stated maturity is assumed to be equal to their carrying values.

Deposits with fixed rate characteristics are at rates that are not significantly different from current rates and are assumed to have discounted cash flow values that approximate carrying values.

24. Financial Risk Management

Financial risks have emerged as the greatest challenge that the Bank faces. This challenge is tackled by developing new approaches in the management of such risks and by adjusting current processes and procedures.

The Bank has taken up this challenge and has placed increased emphasis on the management of all financial risks through the systematic development of tools and strategies to improve their identification and measurement by an enterprise risk management system. Risks are continuously being evaluated in terms of the level of the negative impact they can have on the Bank's income and asset values.

While the Bank places strong emphasis on the management of risks, it does so with the objective of balancing risk taking with expected returns to our shareholders.

Currency Risk

The Bank is exposed to currency risk through its international card and other international business receipts and settlements. Various strategies to hedge the key risk have been devised, ensuring at all times that the actions taken are in keeping with the Bank overall objectives.

Currency Risk Exposure

Amounts ($)	CAD	EUR	GBP	GUY
Dec. 2008	270,645	1,308,254	2,488,900	40,689
June 2008	768,483	2,879,285	4,254,695	11,060

Interest Rate Risk

The Bank is exposed to various risks associated with different rates of interest found in the normal course of its business. Interest rate risk mitigation focuses on potential changes in net interest income. These results from changes in interest rates and mismatches in the re-pricing of interest rate sensitive assets and liabilities as well as product spreads. These are monitored and, where necessary, action would be taken to minimize any adverse effect to shareholder value.

ST. KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED DECEMBER 31, 2008

Liquidity Risk

The Bank is exposed to daily calls on its available cash resources from current accounts, overnight deposits, maturing deposits, loan drawdown and other calls on cash settled items. A range of wholesale and retail funds are managed to ensure that liquidity requirements are met. The Bank liquidity strategy relies on sufficient cash and marketable instruments such as treasury bills and other government securities to meet short term funding needs. Fallback techniques include access to the sub-regional inter-bank market and the ability to close out or liquidate market positions. The Bank ensures that it has sufficient funds to meet its obligations by not converting into loans foreign deposits, demand deposits, reserves, provision for interest, provision for loan losses, and other net financial assets and liabilities.

ST KITTS-NEVIS-ANGUILLA NATIONAL BANK LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD ENDED DECEMBER 31, 2008

Credit Risk

Credit risk is the potential to incur losses due to failure of a counterparty or borrower to meet its financial obligations. Credit risk is inherent in all lending and investing activities. Exposures to credit risk are mainly concentrated in St. Kitts and Nevis, North America, Europe, and other Caribbean States.

The Bank exposure to credit risk is managed through regular analysis of the ability of its borrowers (current and potential) as well as counterparties to meet interest and principal repayment obligations. Credit risk is also managed in part by the taking of collateral and/or guarantees as securities on advances, and by the spreading of this risk geographically as well as over a diversity of personal and commercial customers.

	Total Assets	Total Liabilities	Credit Commitments	Total Income	Capital Expenditure
As at Dec. 31, 2008

Operational Risk

Operational risk is inherent to all business activities and is the potential for financial or reputational loss arising from failure in internal controls, operational processes or the system that support them. It includes errors, omissions, disasters and deliberate acts such as fraud.

The Bank recognizes that such risk can never be entirely eliminated and manages the risk through a combination of systems and procedures to monitor and document transactions. The Bank has developed contingency arrangements including facilities to support operations in the event of disasters. Independent checks on operational risk issues are also undertaken by the internal audit function.

Market Risk

Market risk is the risk of loss that results from the uncertainty in market prices and rates (including interest rates, equity prices, foreign exchange rates, credit spread and commodity prices), the correlations among them and their level of volatility. The significant market risk exposures within the Bank are interest rate risk and foreign exchange risk.

The Bank actively manages interest rate risk to protect the value of shareholders' funds while achieving an adequate rate of returns. Interest rate risk strategies are reviewed on a regular basis as interest rate expectations change. The respective business units as well as the Asset Liability Management Committee continually monitor foreign exchange exposures to ensure foreign holdings are kept within assigned limits.

The Bank holds overseas investment portfolio for liquidity, long term capital appreciation or attractive yields. These portfolios expose the Bank to interest rate, foreign currency, credit spread and equity risks. The investment managers acting in accordance with established Bank's investment policy control these portfolios.

All investments considered by the Bank are subject to research, risk reviews and analysis to ensure that only investments grade quality are booked. Market risk arising from the Bank's funding and investment activities are identified, managed and controlled through the Bank's investment policy and Asset-liability management processes.
