INDEPENDENT AUDITORS' REPORT

To the Board of Directors of THE WEST INDIES OIL COMPANY LIMITED

Opinion

We have audited the consolidated financial statements of The West Indies Oil Company Limited and its subsidiary ("the Group"), which comprise the consolidated statement of financial position as at December 31, 2017, the consolidated statements of profit and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as at December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

INDEPENDENT AUDITORS' REPORT (cont'd)

To the Board of Directors of THE WEST INDIES OIL COMPANY LIMITED

Auditors' Responsibilities for the Audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern.
 - If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to Consolidated Financial Statements

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

1. Reporting Entity:

The West Indies Oil Company Limited (the "Parent Company") is a private company incorporated on March 24, 1961 under the laws of Antigua and Barbuda. The Group is fifty-one (51%) majority owned by the Government of Antigua and Barbuda, 25% by PDVSA, the State-Owned petroleum company of the Bolivarian Republic of Venezuela and 24% by Fancy Bridge, an investment company based in the British Virgin Islands.

The principal activity of the Parent Company is the storage and distribution of petroleum products. The Group also engages in real estate development.

The registered office of the Parent Company is located at Friars Hill Road, St. John's, Antigua.

2. Basis of Preparation:

(a) Statement of Compliance:

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standard Board (IASB).

These consolidated financial statements were approved by the Board of Directors on January 3, 2019.

(b) Basis of Consolidation:

These consolidated financial statements include the accounts of the Parent Company and its whollyowned subsidiary, West Indies Oil Company (Dominica) Limited (collectively referred to as "the Group").

(i) Subsidiary

A subsidiary is an entity controlled by the Parent Company. The separate financial statements of the subsidiary are included in the consolidated financial statements from the date that control commences until the date the control ceases. The accounting policies of the subsidiary have been changed when necessary to align them with policies adopted by the Parent Company.

(c) Basis of Measurement:

These consolidated financial statements have been prepared on the historical cost basis, modified by the revaluation of land and buildings.

(d) Functional and Presentation Currency:

These consolidated financial statements are presented in Eastern Caribbean Dollars, which is the Group's functional currency. All financial information presented in Eastern Caribbean Dollars has been rounded to the nearest dollar.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

2. Basis of Preparation: (cont'd)

(e) Use of Estimates and Judgments:

In preparation these consolidated financial statements, management has made judgments, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

(i) Judgements:

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is included in the following note:

Note 20 - land lease classification.

(ii) Assumptions and estimation uncertainties:

i. Measurement of fair values:

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values.

The Group regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

- 2. Basis of Preparation: (cont'd)
- (e) Use of Estimates and Judgements: (cont'd)
 - (ii) Assumptions and estimation uncertainties: (cont'd)
 - Measurement of fair values: (cont'd)
 When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair value are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:
 - Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
 - Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
 - Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurements are categorised in entirely in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following note:

- Note 3(a) financial instruments.
- (f) Adoption of New or Revised Standards, Amendments to Standards and Interpretations:

 The Group has adopted the following amendments to standards and new interpretations effective from January 1, 2017. Except as otherwise indicated, the adoption of these amendments to standards and interpretations did not have any significant impact on the Group's financial statements.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

2. Basis of Preparation: (cont'd)

(f) Standards Issued But Not Yet Adopted

A number of new standards and amendments to standards are effective for annual periods beginning after January 1, 2015. The Group has not early adopted the following new or amended standards in preparing these financial statements.

Effective January 1, 2018

IFRS 15, 'Revenue from Contracts with Customers' establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing revenue recognition guidance, including IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes.

The new standard is to be applied retrospectively for annual periods beginning on or after January 1, 2017 with early adoption permitted.

The Group is assessing the potential impact on its financial statements resulting from the application of IFRS 15.

Effective January 1, 2018

IFRS 9 Financial Instruments (2015). IFRS 9 (2015) replaces IAS 39 Financial Instruments: Recognition and Measurement and supersedes the previously published versions of IFRS 9 that introduced new classifications and measurement requirements (in 2009 and 2010) and a new hedge accounting model (in 2014). IFRS 9 includes revised guidance on the classification and measurement of financial assets, including a new expected credit loss model for calculating impairment, guidance on own credit risk on financial liabilities measured at fair value and supplements the new general hedge accounting requirements published in 2014. IFRS 9 incorporates new hedge accounting requirements that represent a major overhaul of hedge accounting and introduces significant improvements by aligning the accounting more closely with risk management.

The new standard is to be applied retrospectively for annual periods beginning on or after January 1, 2018 with early adoption permitted.

The Group is assessing the potential impact on its financial statements resulting from the application of IFRS 9.

The Group will need to apply an expected credit loss model when calculating impairment losses on its trade and other receivables (both current and non-current). This will result in increased impairment provisions and greater judgement due to the need to factor in forward looking information when estimating the appropriate amount of provisions. In applying IFRS 9, the Group must consider the probability of a default occurring over the contractual life of its trade receivables and contracts asset balances on initial recognition of those assets.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

2. Basis of Preparation: (cont'd)

(f) Adoption of New or Revised Standards, Amendments to Standards and Interpretations: (cont'd)

The following new or amended standards are not expected to have a significant impact on the Group's financial statements:

- IFRIC 22 Foreign Currency Translations and Advance Consideration (effective 1 January 2018)
- Amendments to IFRS 2 classification and Measurement of Share-based payment Transactions (effective 1 January 2018)
- Amendments to IFRS 4: Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts (effective 1 January 2018)
- Amendments to IAS 40: Transfers of Investment Property (effective 1 January 2018)
- Annual Improvements to IFRS Standards 2014-2016 cycle dealing with matters in IFRS 1 Firsttime Adoption and IAS 28 Investments in Associates and Joint Ventures (effective 1 January 2018)
- IFRIC 23 Uncertainty over Income Tax Positions (effective 1 January 2019)
- Amendments to IFRS 9 Prepayment Features with Negative Compensation (effective 1 January 2019)
- Amendments to IAS 28 Long-term Interests in Associates and Joint Ventures (effective 1 January 2019)
- IFRS 17 Insurance Contracts (effective 1 January 2021)

3. Summary of Significant Accounting Policies:

(a) Financial Instruments:

Non-derivative financial instruments comprise trade and other receivables, cash and cash equivalents, and trade and other payables.

Non-derivative financial instruments are recognized initially at fair value plus any direct attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

3. Summary of Significant Accounting Policies: (cont'd)

(a) Financial Instruments: (cont'd)

The Group initially recognises loans and receivables on the date when they are originated.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such derecognised financial assets that is created or retained by the Group is recognised as a separate asset or liability.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

Financial assets and financial liabilities are offset and net amount presented in the statement of financial position when, and only when, the Group has legal right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(b) Financial Assets:

Management determines the classification of its financial assets at initial recognition.

Receivables are financial assets with fixed or determinable payments that are not quoted in an active market. These assets are carried at amortised cost less provision for impairment. Receivables are included in trade and other receivables. Receivables with maturities in excess of twelve (12) months after the reporting date are classified as non-current assets.

The Group considers evidence of impairment for these assets at both an individual asset and a collective level. All individually significant assets are individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that has been incurred but not yet individually identified. Assets that are not individually significant are collectively assessed for impairment. Collective assessments carried out by grouping together assets with similar risk characteristics.

In assessing collective impairment, the Group uses historical information on the timing of recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

(c) Trade Receivables:

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of the estimated future cash flows, discounted at the original effective interest rate.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

3. Summary of Significant Accounting Policies: (cont'd)

(c) Trade Receivables: (cont'd)

The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognized in the statement of profit or loss within selling, general and administrative expenses. When a trade receivable is uncollectible, it is written off against the allowance for trade receivables. Subsequent recoveries of the amounts previously written off are credited in the statement of profit and loss.

(d) Inventories:

Inventories are stated at the lower of cost or net realisable value, cost being determined on a first in-first out basis. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. A provision is made when the recoverable amount of inventories is likely to be less than cost.

(e) Property, Plant and Equipment:

i. Recognition and Measurement:

Items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

ii. Subsequent expenditure:

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

iii. Depreciation:

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives, and is generally recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

Land improvements/roads	25 years
Building	10 - 20 years
Transportation	5 years
Terminal	10 - 30 years
Sales equipment	10 - 25 years
Furniture and other equipment	4 - 10 years

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

3. Summary of Significant Accounting Policies: (cont'd)

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(f) Investment Property:

Property held for rental and not occupied by the Group is classified as investment property. Investment property is comprised of warehouses and service stations and is carried at cost less accumulated depreciation and impairment losses, if any.

The Group uses the cost model to account for its investment property. Initially, an item of investment property is measured at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that the cost is incurred if the recognition criteria are met and excludes the cost of day-to-day servicing of an investment property.

(f) Investment Property: (cont'd)

Depreciation is provided using the straight-line method at rates considered adequate to write-off the cost, less residual value, over the estimated useful lives of the assets. The useful lives and depreciation method are reviewed at each reporting date to ensure that such useful lives and depreciation method are consistent with the expected pattern of economic benefits from those assets. Warehouses are depreciated at a rate of five (5%) percent annually, while service stations are depreciated at a rate of three (3%) percent to five (5%) percent annually.

(g) Revenue Recognition:

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and when specific criteria have been met as described below.

Revenue from the sale of petroleum products is recognised upon the delivery of products and customer acceptance and is shown net of sales taxes.

(h) Property Held for Development and Sale:

Property held for development is measured at:

- Carrying value as at the time of classification as development property; plus
- Subsequent development and construction costs; less
- Amounts transferred to cost of sales relating to lots sold.

Costs directly related to the development of land held for development and sale are capitalised and include planning costs, consultancy fees and construction costs. General and administrative expenses associated with Friars Hill Development project are expensed in the year incurred.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

3. Summary of Significant Accounting Policies: (cont'd)

Construction costs for houses are attributed to individual properties and de-recognised at the time of the sale of the lot upon which the house was built. Capitalised common development costs are assigned to individual lots based on the surveyed square footage of each lot and de-recognised at the time of the sale of the lot.

(i) Cash and Cash Equivalents:

Cash and cash equivalents comprise cash balances.

Included in cash and cash equivalents is a current account of EC\$44,199,222 (2016: EC\$36,847,232).

(j) Taxation:

Taxation on the profit or loss for the year comprises of current and deferred tax. Taxation is recognised in the consolidated statement of comprehensive income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the income for the year, using tax rates enacted at the statement of financial position date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided in full, using the statement of financial position liability method and providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted at the statement of financial position date.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

(k) Foreign Currency Translation:

Transactions in foreign currencies are translated into Eastern Caribbean Dollars at the exchange rates at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Eastern Caribbean Dollars at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items that are measured based on historical cost in a foreign currency are not translated.

(I) Borrowings:

Borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, borrowings are stated at amortized cost with any difference between cost and redemption value being recognized in the profit or loss over the term of the borrowings on an effective interest rate basis.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

3. Summary of Significant Accounting Policies: (cont'd)

(m) Provisions:

A provision is recognised in the consolidated statement of financial position when the Group has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to liability.

(n) Trade Payables:

Trade payables are recognised at fair value and subsequently measured at amortised cost.

(o) Consolidation:

A subsidiary is an entity over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred. They are de-consolidated from the date that control ceases.

4. Determination of Fair Values:

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

(i) Trade and Other Receivables:

The fair value of trade and other receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting date.

(ii) Non-derivative Financial Liabilities:

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

The fair value of cash and cash equivalents, trade and other receivables, trade and other payables and tax payable are not materially different from their carrying amount due to their short-term period to maturity or their contractual terms.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

5. Financial Risk Management:

The Group has exposure to the following risks from its use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework and it also assesses financial and control risks to the Group.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations. The Group's Directors oversee how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risk faced by the Group.

(a) Credit Risk:

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

i. Trade and Other Receivables:

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the Group's customer base, including the default risk of the country in which customers operate, has less of an influence on credit risk. Geographically there is no concentration of credit risk.

ii. Cash at hand and at Bank:

Cash and cash equivalents are held with established financial institutions, which represent minimum risk of default

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

5. Financial Risk Management: (cont'd)

(a) Credit Risk: (cont'd)

The maximum exposure to credit risk at the reporting date was:

	2017	2016
Cash and cash equivalents Trade and other receivables	\$ 50,599,648 87,330,000	38,202,624 91,744,182
	\$ 137,929,648	129,946,806

Credit risk in respect of trade and other receivables is limited as these balances are shown net of provision for doubtful debts. Cash at hand and at Bank are held with financial institutions which represent minimum risk of default.

(b) Liquidity Risk:

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure that, as far as possible, it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

5. Financial Risk Management: (cont'd)

(c) Market Risk:

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and price risk will affect the value of the Group's assets, the amount of its liabilities and/or income. Market risk arises from fluctuations in the value of liabilities and the value of investments held. The Group is exposed to market risk on certain of its financial assets.

(i) Price Risk:

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, whether those changes are caused by factors specific to the individual instrument or its issuer, or factors affecting all instruments traded in the market. The Group has no significant exposure to such risk.

(ii) Interest Rate Risk:

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Interest rate risk is affected where there is a mismatch between interest earning assets and interest bearing liabilities, which are subject to interest rate adjustments within a specified period. The Group has no significant exposure to interest rate risk.

(iii) Currency Risk:

Currency risk is the risk that the value of a financial instrument will fluctuate because of changes in foreign exchange rates. The main currencies giving rise to this risk are the Eastern Caribbean Dollar and United States Dollar arising from purchasing transactions. The Group does not face any such risk since it transacts its operations in Eastern Caribbean Dollars, which is its functional currency. The Eastern Caribbean Dollar, in which the Group also transacts business, is fixed in relation to the United States Dollar.

(d) Fair Value:

The fair values of cash and cash equivalents, trade and other receivables and trade and other payables are not materially different from their carrying amount due to their short-term to maturity or their contractual terms.

Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

5. Financial Risk Management: (cont'd)

(e) Capital Management:

It is the Group's policy to maintain a strong capital base so as to sustain future development of the business. The Board of Directors monitors the return on capital, which the Group defines as total shareholder's equity. The Group is not subject to externally imposed capital requirements and there were no changes in the Group's approach to capital management during the year.

6. Trade and other Receivables:

	2017	2016
Trade receivables	\$ 87,259,508	77,573,618
VAT recoverable, net	3,748,552	2,409,670
Prepayments	2,468,953	753,537
Other receivables	1,842,971	1,058,591
	95,319,984	81,795,416
Less: Provision for impairment - trade and other receivables	(1,772,479)	(1,772,479)
	\$ 93,547,505	80,022,937

The fair values of trade and other receivables approximates their carrying values above.

As of December 31, 2017, trade receivables of EC\$69,699,769 (2016: EC\$41,977,126) were past due but not impaired. These relate to a number of independent customers for whom there is no recent history of default. The aging of these trade receivables is as follows:

	2017	2016
Overdue by 1 to 30 days	\$ 10,470,865	8,682,225
Overdue by 31 to 60 days	8,323,617	6,599,922
Overdue by more than 60 days	50,905,287	26,694,979
	\$ 69,699,769	41,977,126

As of December 31, 2017, trade receivables of EC\$1,772,479 (2016: EC\$1,772,479) were considered impaired and provided for based on the Group's accounting policy (See Note 3). The aging of these receivables is as follows:

Notes to Consolidated Financial Statements (cont'd)

(Expressed in Eastern Caribbean Dollars)

6. Trade and other Receivables: (cont'd)

	2017	2016
Overdue by 31 to 60 days	\$ -	-
Overdue by more 60 to 90 days	-	-
Overdue by more than 90 days	1,772,479	1,772,479
	\$ 1,772,479	1,772,479

The other classes within trade and other receivables do not contain impaired assets.

Movements on the provisions for impairment of trade receivables are as follows:

	2017	2016
At January 1 Bad debt expense Write-offs	\$ 1,772,479 -	1,522,032 702,054 (451,607)
Wille-ons	-	(451,607)
At December 31	\$ 1,772,479	1,772,479

The maximum exposure to credit risk at the reporting date is the fair value of each class of receivable mentioned above. The Group does not hold any collateral as security.

The carrying amounts of the Group's trade and other receivables are denominated in the following:

	2017	2016
Eastern Caribbean dollars	\$ 73,841,751	65,320,958
United States dollars	19,705,754	14,701,979
	\$ 93,547,505	80,022,937

8. Related Party Balances and Transactions:

(a) Related Parties:

A related party is a person or entity that is related to the entity that is preparing its financial statements (referred to in IAS 24 *Related Party Disclosures* as the "reporting entity").

- a) A person or a close member of that person's family is related to a reporting entity if that person:
 - i) has control or joint control over the reporting entity;
 - ii) has significant influence over the reporting entity; or
 - iii) is a member of the key management personnel of the reporting entity, or of a parent of the reporting entity.
- b) An entity is related to a reporting entity if any of the following conditions applies:
 - i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - iii) Both entities are joint ventures of the same third party.
 - iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

- 8. Related Party Balances and Transactions: (cont'd)
- (a) Related Parties: (cont'd)
 - b) An entity is related to a reporting entity if any of the following conditions applies: (cont'd)
 - v) The entity is controlled, or jointly controlled by a person identified in (a).
 - vi) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

A reporting entity is exempt from the disclosure requirements of IAS 24.18 in relation to related party transactions and outstanding balances, including commitments, with:

- a) a government that has control or joint control of, or significant influence over, the reporting entity; and
- b) another entity that is a related party because the same government has control or joint control of or significant influence over, both the reporting entity and the other entity.

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

(b) Remuneration of Key Members of Management:

Details of key management compensation, shown as part of payroll and related costs under selling, general and administrative expenses in the consolidated statement of comprehensive income, are shown below:

	2017	2016
Salaries and wages	\$ 1,176,376	1,042,800
Other staff costs	516,875	505,366
Pension costs	100,370	66,899
	\$ 1.793.621	1.615.065

9. Property Held for Development and Sale:

	2017	2016
Balance at beginning of year Land transferred to shareholder - Government of Antigua and Barbuda Write-down of revaluation surplus	\$ 9,148,000	9,148,000 -
Balance at end of year	\$ 9,148,000	9,148,000

Land included in property held for development and sale was contributed to the Company by the Government of Antigua and Barbuda. The land was valued at its market value of \$80,604,808 as of December 31, 1992 by an independent firm of appraisers.

In April 2015, as part of the transaction in which the government increased its minority shareholding from 25% to 100% of the shares thereby acquiring control of the company, lands with cost of \$48,870,000 were transferred to the Government of Antigua and Barbuda (GOAB). This transaction resulted in an equivalent reduction in the revaluation surplus of the shareholders' equity.

As at December 31, 2015, the land was revalued at EC\$9,148,000 resulting a decrease in revaluation surplus of EC\$18,244,155 (Note 16).

(Expressed in Eastern Caribbean Dollars)

11. Property, Plant and Equipment: (cont'd)

Property, plant and equipment include seventy (70) acres of land contributed to the Group by the Government of Antigua and Barbuda. The land was valued at its market value as of December 31, 1992 by an independent firm of appraisers.

As at December 31, 2005, the above seventy (70) acres of land were revalued at EC\$30,492,000, resulting in the recognition of an additional revaluation surplus of EC\$5,414,949. As at December 31, 2014, the seventy (70) acres of land were revalued at EC\$36,590,000, resulting in the recognition of an additional revaluation surplus of EC\$6,098,000. The lands were further revalued as at December 31, 2015 to \$59,764,000 resulting in the recognition at an additional revaluation surplus of EC\$23,174,000 (Note 15).

The land was valued at its market value by an independent valuator. The revaluation surplus was credited to the 'revaluation surplus' account in equity (Note 16).

12. Trade Payable and Other Payables:

	2017	2016
Trade payables	\$ 85,641,157	41,368,882
Accrued liabilities	10,289,704	16,908,997
APUA Claim Payable (Note 22)	2,506,203	2,506,203
Security deposits	1,942,267	1,911,272
Dividend Payable	7,863,228	5,246,912
	\$ 108,242,559	67,942,266

All of the trade and other payables are contractually or constructively due within twelve (12) months of the reporting date.

The carrying amounts of the Group's trade and other payables are denominated in the following currencies:

	2017	2016
Eastern Caribbean dollars United States dollars	\$ 48,008,460 60,234,099	39,508,281 28,433,985

13. Long-term Debt:

The Group entered into a loan agreement which resulted in access to loan funds totaling EC\$45,900,000 at a rate of four and a half (4.5%) per annum repayable over seven (7) years. The purpose of the loan is to finance the initial phase of the company's tank expansion program and related ancillary plant and equipment.

During the year ended December 31, 2017, drawdown on the loan facility totaled \$13,500,000. No repayments of principal have been made since the construction moratorium period is still in effect. Accrued interest of EC\$306,000 has been capitalized.

The loan is secured by way of a charge over land.

20. Taxation:

Reconciliation of income tax calculated at applicable tax rate with income tax expense as follows:

	2017	2016
Income before taxation	\$ 29,071,021	21,173,249
Tax at effective rate	7,435,203	5,447,641
Add/(Deduct):		
Tax effect on items not allowable as tax deductible items	1,450,329	50,360
Tax effect on capital balancing allowance	(2,097,666)	(207,839)
Tax effect on losses (utilized)/not utilized	(69,457)	83,348
Deferred tax	740,457	198,475
Withholding tax	91,250	18,000
Current tax expense	\$ 7,550,116	5,589,985

The deferred tax asset balance arises from decelerated tax depreciation and is recognized using a rate of 25% being the effective tax rate.

The Group has incurred income tax losses of EC\$277,828 which can be carried forward for a period of six (6) years and applied to reduce taxable income by an amount not exceeding one half of taxable income in any one year of assessment. The losses would expire as follows:

<u>Date of Expiration</u>	<u>Losses</u>
December 31, 2020	\$277,828

Notes to Consolidated Financial Statements (cont'd)

December 31, 2017

(Expressed in Eastern Caribbean Dollars)

21. Commitments and Contingencies:

The Group leases land from the Government of Antigua and Barbuda on which certain pipelines have been installed. As of December 31, 2017, this lease had fifty-three (53) years remaining. The Group has a waiver of the annual rental amount of EC\$5,000.

22. Potential Customer Claim

The Group's sole customer for Fuel Oil, The Antigua Public Utilities Authority performed a review of the loading, delivery and metering procedures for the product over the months May - September 2015 at Parent Company and the customer's facilities. The customer's preliminary report dated November 18th 2015, was shared with WIOC's management. In the report addressed to APUA's management, APUA claims that there is potential liability to APUA of \$6,277,476. APUA's management has not submitted a formal claim but have referred the report to the Parent Company for discussion and a response. It is the Group's position that the potential liability has not been adequately substantiated with the details of the calculation and supporting documentation not provided with the preliminary report. In addition, it is also the Group's position that the report does not provide a basis for making a provision for a potential liability for amounts due to the customer. The amount of liability assessed by the Group amounted to \$2,506,203. This amount has been recorded as a liability as of December 31, 2015.

23. Tax Assessments

During the financial year ended December 31, 2017, the Parent Company was assessed additional witholding tax amounting to \$57,000 by the Inland Revenue Department (IRD) in respect of the year ended December 31, 2016. The Parent Company was previously assessed additional corporate and withholding tax amounting to \$12,765,524 by the (IRD) in respect of the years ended December 31, 2005 to 2016. The Parent Company recorded an accrual of tax liability amounting to \$7,236,788. The difference of \$5,528,736 is due to Antigua and Barbuda Sales Tax (ABST) credits which have not been applied to the company's account by the IRD because these credits have not been audited by the ABST division of the IRD. The Parent Company expects this audit to be completed in 2018 and will adjust for any additional corporate and withholding tax liability if a revision is required as a result of the audit.
