### **And today's financial tip:**

#### **How is the market price of a company's shares determined?**

The market price of a company's shares is determined based on the amount of money a willing buyer pays to obtain the shares from the seller. For example, the market price for TDC shares is \$1.30 per share, this means that the last buyer of TDC shares paid \$1.30 per share in order to acquire the shares.
